- CMS & Platforms: WordPress Plugin Development, Gravity Forms, WooCommerce, Elementor, Divi, Shopify, Unbounce
- Tools & Practices: Git, ClickUp, API Integrations, Debugging & Root-Cause Analysis, Production Environment Troubleshooting
- Certification: Creating WordPress Plugins The Right Way - Udemy

WORK EXPERIENCE

Technical Support Specialist (Support Wizard) — Gravity Wiz

Dec 2024 - Jun 2026

- Resolved 1,000+ technical support tickets across the Gravity Wiz product suite by troubleshooting complex WordPress, PHP, and Gravity Forms issues, restoring functionality and minimizing customer downtime.
- Conducted root-cause analysis across WordPress environments, plugin conflicts, caching layers, and custom code, enabling customers and engineering teams to implement reliable long-term solutions.
- Partnered with engineering teams to reproduce software defects, document technical findings, and validate product fixes.
- Maintained a zero-ticket support backlog through effective prioritization, efficient issue resolution, and timely customer communication.
- Maintained a 90%+ customer satisfaction rating while helping customers implement advanced workflows using Gravity Wiz products, Gravity Forms, APIs, payment gateways, and third-party plugins.

Software Developer | Project Manager — Gravity PDF

Jul 2019 - Dec 2024

- Delivered 100+ custom Gravity PDF projects by translating client requirements into scalable document automation solutions, from technical discovery through implementation and deployment.
- Managed multiple client projects simultaneously, coordinating with developers and stakeholders to deliver projects on schedule.
- Investigated and resolved complex PDF generation, template, and implementation issues, helping clients successfully deploy their document automation solutions.

Freelance Web Developer — Self-Employed

2018

- Built and maintained WordPress websites and Unbounce landing pages for small business clients, handling page layout, custom styling, and deployment.

EDUCATION

- Bachelor of Science in Computer Engineering — Lorma Colleges
Capstone: Document Tracking System for the Provincial Government (AngularJS)
- Juris Doctor — Don Mariano Marcos Memorial State University (Expected 2027)
